ABOUT

I'm a Product Designer focused on creating digital products that are simple, intuitive and enjoyable to use. I work with startups and growing businesses to transform ideas into user-centered web and mobile experiences. My process covers product thinking, UX strategy, interface design, prototyping and developer handoff, with a strong focus on clarity, usability and business goals.

- Product Design
- UX Design
- UI Design
- User Research
- User Flows
- Information Architecture
- Wireframing
- Prototyping
- Design Systems
- Responsive Web Design
- Front-end Implementation
- Developer Handoff

EXPERIENCE

Product Designer [Bndlabs](#) 2025 — Present

- Designed user-centered digital products for startups across fintech, healthcare, e-commerce and marketplace industries.
- Led projects from discovery and wireframing through high-fidelity design and developer handoff.
- Built responsive product experiences focused on usability, accessibility and visual consistency.
- Collaborated directly with founders to transform ideas into intuitive digital products.
- Established reusable design systems to maintain consistency across products.

UI/UX Design Intern [Trueminds Innovation Ltd.](#) 2026 — Present

- Designed and prototyped responsive web interfaces in Figma.
- Produced wireframes, user flows and high-fidelity designs.
- Collaborated with developers to improve design handoff.
- Maintained component consistency across multiple product screens.

FEATURED PROJECTS

PawMart

Designed an e-commerce experience that improves product discovery, shopping flow and customer experience.

🌐 [View Case Study](#)

Chowdeck — Pay for Me Flow

Redesigned Chowdeck's payment flow by introducing payment codes to simplify transactions and reduce checkout friction.

🌐 [View Case Study](#)
